EXPERIENCE

Software Developer 1 July 2026 – Present

Kickdrum *Koramangala, Bengaluru*

- Engineered an on-demand **Energy-Delivery Platform (React Native, NestJS)** applying Blinkit-style logistics to electricity, dispatching charge units from a central powerhouse to hubs and routing them to customers by priority.
- **Owned** end-to-end **infrastructure** and **deployment** of OCPP servers with UIs (**CitrineOS via Docker, SteVe**), delivering them to clients in 3 days and 2 days respectively, with **99.9% uptime** since day one.
- Leading data modeling of **Customer+Admin Portal** that **unifies 3 apps into one platform**: fleet charging schedules across sites, billing, invoices, session monitoring, and admin-level customer and user management.

Software Developer Intern Jan 2026 – June 2026

Kickdrum

- Architected a cloud-native, **event-driven backend (Spring Boot, 6+ AWS services)** delivering fault-tolerant loan and device workflows **15+ secure REST APIs, RBAC, concurrency control**, and 20+ tests with centralized observability.
- Built production AI systems across RAG, agentic workflows, and LLM fine-tuning (MCP design agent, clinical structuring model, Slack learning engine), plus a reusable **agentic harness cutting feature-build time 3x.**

Cloud Engineering (FinOps) Intern Jun 2025 – Aug 2025

ICICI Bank *BKC, Mumbai*

- Analyzed cost patterns across **3+ cloud projects**; designed a cost deviation model projected to cut infra costs by **15%** and improve deployment decision-making speed by **25%**.

EDUCATION

National Institute of Technology Manipur Aug 2022 – May 2026

B.Tech in Computer Science and Engineering ***CGPA: 9.19***

Madhavrao Scindia Public School, Bareilly Jun 2021

Intermediate (Class XII) ***CGPA: 9.68***

PROJECTS

Org Learning Engine | *AWS, Slack Bolt, Pinecone, LangChain/LangGraph* June 2026

- Built a **Slack-first serverless system capturing learning moments in under 10s** via a three-state lifecycle (draft → sandbox → committed) and a **3-layer anonymisation pipeline** (Presidio + LLM verifier)
- Implemented an end-to-end **RAG pipeline** for conversational search, plus an EventBridge-scheduled daily digest, fully traced at **$0.013 per submission**

AI Kitchen Auto-Design System | *Python, MCP, LLM APIs* May 2026

- Built an LLM agent turning room dimensions and **natural-language prompt into 3–5 spatially valid kitchen layouts** (L/U/I), resolving color requests to catalog SKUs via an MCP-exposed catalog.
- Implemented bounding-box collision detection and **an NKBA + workflow rule pack** (work-triangle, clearances, continuous-run) to rank variants, with **2D/3D renders** and per-choice rationale in **under 30s**

IBE — Internet Booking Engine | *React, Spring Boot, AWS (ECS, Cognito, Terraform, CI/CD)* </> Mar 2026

- Architected a **configurable, multi-tenant** booking platform with robust **concurrency control** and dynamic room assignment; provisioned infra via **Terraform** (ECS, Service Connect, Cognito).
- Optimized for **1000+ concurrent users** at sub-500ms latency; validated at scale via **JMeter** load testing and automated **CI/CD** pipelines.

TECHNICAL SKILLS

Languages,Core & Backend: C/C++, Python, JavaScript/TypeScript,DSA, OOP, DBMS, OS, Spring Boot, MERN, REST APIs, AWS, Terraform, CI/CD, Git/GitHub

AI/ML: LangChain/LangGraph, CrewAI, RAG, GraphRAG, MCP, Fine-Tuning, HuggingFace, PyTorch, Vector DBs, Embeddings Semantic Search, Vision/OCR, Agentic Workflows, LLMOps, Guardrails

Competitive Programming: 800+ DSA problems solved | **CodeChef:** 1751 | **CodeForces:** 1410

ACHIEVEMENTS

- **Finalist, IIT Madras** Programming Contest; shortlisted for **Microsoft** and **JP Morgan** SDE interviews.
- **Hackathon Finalist:** Void Hacks 6.0 & North East Tech Summit (2 consecutive years) — Landslide Prediction System, AI-Based Smart Food Waste Management.
- **Google Student Ambassador & Student Director (Unstop)** — awarded **Best Student Director (Northeast)**.

CERTIFICATIONS

- **Oracle Certified Cloud Foundation Associate**; **Claude Certified Architect - Foundations**
